## NOMINATION TENDERED TO W. J. MAGRATH

Will Give His Answer To Petitioners Through Press Tuesday Afternoon.

## IF HE BURNS PLATFORM TO BE NEW CITY CHARTER

Mr. Magrath Asked For His Views On Gas And Street Numbering Questions.

Challenging a motion of "let the man go" which he used in his motioned nomination last year, one of extreme caution and conservatism this year, W. J. Magrath, prospective candidate for mayor for 1914, told petitioners who had come to him in the Empire Auditorium on Second street Saturday night, that he would not nominate himself afterword, and whether or not he would accept the offer of nomination gives him by the meeting.

After Mr. Magrath had been offered the nomination by Francis A. Sander, secretary of the Liberal party, he was asked to endorse the circulation of petitions asking Mr. Magrath to run for mayor, he made a brief speech, the text of which was as follows: "I am up in outlining his stand on the question of taking a plebiscite on the initiative, referendum and recall. Mr. Magrath's attitude is that of a majority of the people. I am not about to take, but not at present until the people had had ample time to consider the question, a stand in opposition to the new system.

The meeting, which was scheduled to start at half past eight o'clock, did not begin until 10 o'clock. Mr. Sander, when Chairman T. W. Webster delayed the meeting to order and adjourned the meeting to the outside, the result of the campaign to have Mr. Magrath as mayoralty candidate.

Mr. Magrath said that a good many had felt that there should be opposition to the present administration, and that he had been asked to do so. He said that he had no time to go to the highest office in the city. All had agreed and an effort was now being made to have him stand in opposition to Mayor Short. Petitions had been circulated in a desultory fashion, with the result that one thousand signatures had been gathered.

Like Three-Cornered Fight.

Although Mr. McNamara had refused to run for mayor, he had agreed to help Mr. Magrath, and now looked like a three-cornered fight.

"A good many people" said Mr. Sander, "are of the opinion that Mr. Magrath would carry the fight through to a finish. They have a right to do so, and I am in a position to say, however, that if he accepts the nomination he will be in the fight until the last vote is counted."

Mr. Sander thinks that the time when he could be in the city's seat when a good many men had needed his head. Some people argued that Mr. Magrath was not necessarily a good candidate, but he was a good man.

He would be satisfied with having such a successful man as mayor.

"Mayor Short shows no inclination to let the people vote on the question.

## UNIONIST WINS IN READING ELECTION

Government Loses Seat Made Vacant By Elevation of Sir Rufus Isaacs.

By Bulletin Leased Wire.

READING, Eng., Nov. 9.—The Unionists were victorious today in the by-election made necessary by the withdrawal of Sir Rufus Isaacs, who assumed the lord chief justiceship. The greatest interest centred in the contest between Mr. H. G. Smith, capturing the seat with 5144 votes, George Lenahy (Conservative), received 4000, and Mr. J. H. Moore (Liberal), 1623. The Socialist undoubtedly cut into the Liberal vote.

The Socialist majority of the March 10 by-election in which Sir Rufus Isaacs figured, but the Unionists avoided mention of it, was mentioned only in passing.

The Insurance Act their rallying cry. The militant suffragettes supported Captain Butler, who had been sent to close a large squad of the militiamen arrived. The town hall was again surrounded by a double force of police, while the polling places were watched through the windows of the hall, the ballot boxes were feared.

At the last election Sir Rufus Isaacs had polled 10,000 votes against 4,555 received by Captain Butler, Liberal Unionist. The Liberal candidate, Mr. Good, was formerly a member for Bath, and he entered the constituency only on the eve of the contest.

## WORST STORM IN YEARS SAYS ONE CAPTAIN

Over Fifty Steamers At Anchor

Point.

Sault Ste. Marie, Mich., Nov. 9.—"Lake Superior has been lashed by a like never seen for the past thirty years,"—said Captain J. C. Goss, who came to Lake Superior two days ago with his steamer, the "Goss," to inspect the damage done to the coast approach on the Canadian side of the lake. The northward wind, which was very strong Saturday night, had been blowing all day, and sprang up in a gale force at 10 o'clock last night.

"We never had such up from the time we left Duluth," said Captain Goss, of the "Lucia," tonight. "The wind was so strong that we had to turn our wheel house in order to see. The furious wind, coupled with the heavy seas, made it one of the severest nights I have experienced for years."

The weather observatory was busily giving out information, also weather conditions, and many steamer owners, the warnings were issued.

The steamer "Goss" was anchored between the Soo and White Fish Point awaiting statement of the damage done to the coast.

The steamer "Lucia" which arrived from Trieste also reported severe weather.

The decks were flooded.

## NOMINATION IS OFFERED TO W. J. MAGRATH

*(Continued From Page One.)*  
of elected commissioners," declared Mr. Magrath, "but Mr. Magrath believes we should get all the information on the subject first and then be allowed to vote."

**Mr. Magrath Greeted With Applause.**

Mr. Magrath made his entrance at the podium and was received with applause. He was at once called on to address the meeting, and began his remarks with a hearty "Good evening, whatever of discussing civic affairs on that particular occasion."

"It is hard to decide whether or not I can for a moment," he declared. "I want to examine these petitions to see who is helping me. I want to see who is helping my friend. Next Tuesday afternoon I will announce through the newspapers my decision."

Mr. Magrath spoke with some length on "the voice of the people."

"I tell," said he, "that when you speak for a man you are naturally going to have done the right thing."

"Very many think that now," cried a voice, and the crowd laughed.

Mr. Magrath refused to be drawn. "I am not going to say who I am for or against," he said. "Mr. May Short," he replied, "you are the judges and you must decide for yourselves."

**Refers to City Charter.**

The speaker then referred to the city charter. He pointed out that last year he had undertaken his present position as the present recorder, but the people evidently had thought otherwise. "I understand some of you have even called me a traitor to the cause," he said, "but I am not. I have not changed my mind. I have not changed. I have not changed my mind at all."

Mr. Magrath likened the present administration and the charter to two gosses who had been living together for ten years—years in which he had to support them.

"The time has come when I am going to be a factor in the civic government. I am not going to dictate what this shall be, but the citizens have an opportunity to say what they want."

He emphasized the fact that he stood on his original ground in the initial referendum and really was concerned. He wanted to investigate it more thoroughly before he would return to the city charter, but he said that Mayor Short opposed it, while W. J. McNaughton favored it.

**Opposes Charter.**

Although he had not yet decided to run, he promised the audience that if elected he would have a plebiscite taken on the charter and refer it to the initiative and referendum committee with the initiative referredendum and recall, he would appoint a committee of citizens to visit the cities where the referendum was in force. On their report any advice to the new Edmonton charter would be followed.

"If I do come out," declared Mr. Magrath, "you will all understand that my platform will be the same as before. Further I will have a plebiscite on the initiative, referendum and recall, and I will advocate more democracy."

Mr. Magrath deprecated the attitude of some of the citizens in the city towards people. He advised the newspapers and the people to get together in an effort to build up a sound civic administration.

"It is so easy to be a knave," he declared. "It is very easy to tear down the best building in the city, but it needs skilled mechanics to build it up."

**Other Speakers Heard.**

After Mr. Magrath had concluded his address, the temporary committee, consisting of Mr. W. J. McNaughton, Mr. Bulman, T. W. Fletcher, N. E. McCutcheon and F. A. Sauer, accepted his nomination to the city charter committee. This committee was given power to add to its numbers.

Mr. Joseph A. Clarke delivered his annual appeal. He denounced "William" short as a "coward" and declared Alderman Donoug and Mr. Langstone would hardly get their own voices if they were to be re-elected. He also declared Alderman Grice and May as the only representatives the people had in the council. He also declared that the voices called out "Quitter" May. Mr. Clarke declared that he was going to his feet to speak for the people who voted to support Mr. Magrath for mayor. He stated that W. J. McNaughton had been elected to the city port six weeks ago, but that he had stated definitely he would not run. Now, he said, he had to run. He said so suddenly, Mr. Clarke felt he could not support him. The speaker thought the people would be to be shamed Mr. Magrath and Mr. McNaughton.

From time to time the speaker then let the winner of this primary meet run opposition to Mayor Short.

**Position on Gas Question.**

Various questions were asked Mr. Magrath, but he had not yet decided his position on the gas question. He declared he did not favor a big expansion of the city, nor did he favor giving the city a franchise. A. W. Williams took the platform to say he was disappointed in the city's attitude. The city should keep its own franchise, not what it could to get the gas into the city.

London, Nov. 8.—England's King, the Prince of Wales, wearing a fur coat and cap, started his annual tour to Scotland to Blackfriars Palace yesterday. The object of his journey was to see the Queen before she goes to Sandringham.

### FINAL PAYMENT ON DEBTS BY KLEINWORTS

The entire amount of \$9,000,000 less various discounts, which Kleinworts & Sons, Ltd., of London, Eng., contracted for in this year's debtors issue, was paid to the city, nor did he favor giving the city a franchise. A. W. Williams took the platform to say he was disappointed in the city's attitude. The city should keep its own franchise, not what it could to get the gas into the city.

London, Nov. 8.—King Edward VII, if he favored a plebiscite on the street reorganization question, Mr. Magrath said, he thought the people should express their opinion on that question.

**Child Killed by Prince's Auto.**

Potsdam, Germany, Nov. 8.—A four-year-old girl was knocked down by a motor car driven by Prince Leopold of Prussia, was driving near here today, and died after being taken to the hospital. The child darted across the street in front of the motor car too late for the driver to avoid her.

How often one wishes it were possible to turn back the hands of time and seize some neglected opportunity.

This is especially true in regard to the rapid growth of Canada West. In-  
creases in land values and population

during the past decade have been phenomenal. Official census figures show

a population of 12,310 people, who,

at the taking of the last census

in 1911, had a population of 1,700.

Population during that period increased from 4,982 to 45,761; Regina's

from 2,191 to 21,000; and Fort

McMurray from 2,525 to 25,000.

#### Attempt to Shoot Inspector

Edmonton, Nov. 8.—Premised: "I thought of shooting another man in the prison. Wilfrid Belcourt, alias J. D. Mural, a ticket-of-leaves man, attempted to do so. He was in the private office yesterday morning. Inspector Albert Smith and other constables were called up by the constable and Detective Toots, and when searched at the police office they discovered a surprising amount of stolen goods. The police believed

that these men have been mixed up in the recent series of store robberies.

#### Steve Short Lived.

Richmond, Ind., Nov. 8.—Four tourist cars were run without interference by the police. The police believed that the series of motorman and conductors, which was begun yesterday morning, would be short-lived. The cars were mounted by strikers, who used to be reinstated.

It will be an eye-opener for you

**This is only one of the reasons:** We are putting in a large, modern gas drilling outfit and have let the contract for a 16-inch hole. We will go to any depth necessary to tap the gas that we know is in this locality. We pledge ourselves to spend more than \$15,000 for development work. We need \$2,500 more money at once, and will sell a few lots to raise this amount.

We wish to state that the following letters from Superintendent N. B. Walton of the G. T. P. Railway, and others, are used without their knowledge or authority.

## FACTS

At **UNCAS** we have a \$2500.00 Depot with living rooms, also 80 car siding capacity.

This is an established location and is being used as a permanent siding.

Will be pleased to answer any further inquiry you may wish to make.

(Signed) N. B. WALTON,  
Superintendent G. T. P. Ry.

In regard to drilling a Gas well on Section 22, Tp. 52, R. 21, W. of Meridian, you could say that you have chosen as desirable a location as we could possibly find. We think there is no doubt whatever as to the presence of Gas in that locality, there being Gas struck every direction from **UNCAS**. After a careful study of this field, would judge that you are safe in your investment.

(Signed) WILLISON & MEREDITH,  
Per Oscar Willison,  
Oil Well Contractors.

If gas in marketable quantities should be discovered close to the City it would undoubtedly prove a bonanza to the City of Edmonton.

(Signed) G. H. MAY.
